## This is how you bui

## Extruded gunnels combine strength, consistency and versatility

## Reverse-chine hulls with integrated keels vs. applied splash rails and keels

on many models for maximum spray

#### Smoother edges mean no line-breaking snags

#### No fracture points for better paint adhesion

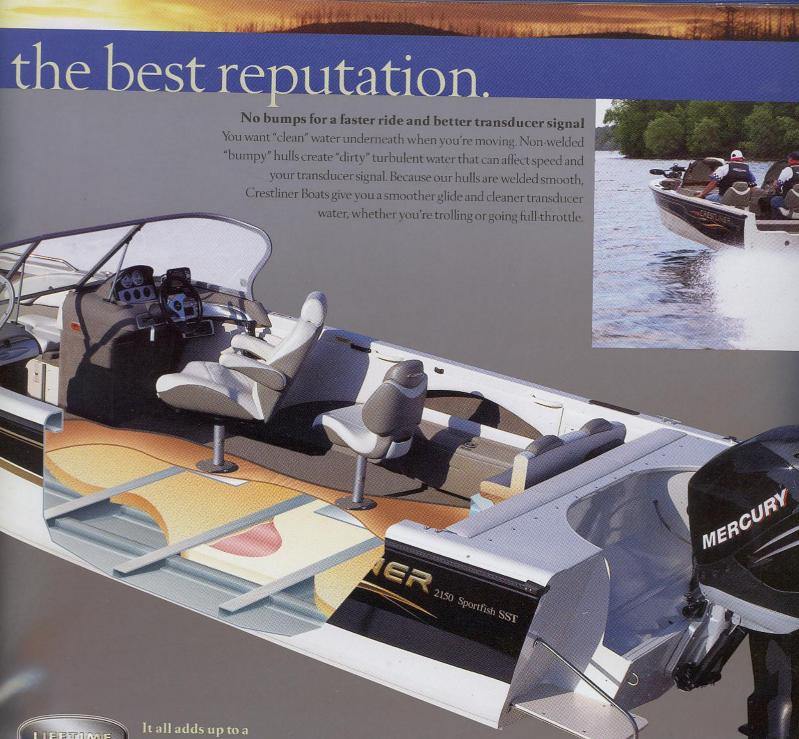

### Our welds stand up to rough roads that can loosen the bottoms of other boats

It all adds up to a better warranty and peace of mind

The superiority of a UniWeld hull allows us to offer a superior warranty. Our LIFETIME + 3 Protection Plan covers hull welds for life to the original owner. Virtually everything else from bow-to-stern is covered for three years. It doesn't get any better than that.

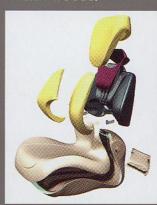

## Style, comfort, technolog

ou think our hulls are impressive, you should see what put inside them! Here's a quick tour of the innovations at make a Crestliner a Crestliner:

hat you see.

What we see.

arly every boat in this book has our phenomenal Concept DX fishing irs. You've never seen boat seats like them, because they don't exist where else. Compression tests prove that these seats provide 33% ter weight support than virtually any other marine chair out there. d the seat portion is 100% waterproof! The right-hand picture shows how they're made, but to truly appreciate them, have a seat.

### w "Crest-Liner" Undercoating on inside lids

Lift the lid on a storage compartment on many models and you'll see our new undercoating. We call it "Crest-Liner" and it's a lot like the bedliner material in pickup

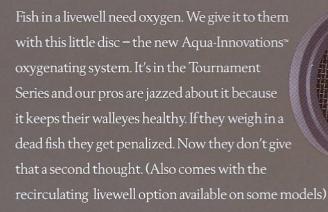

trucks. In addition to being weather and impact-resistant, the "Crest-Liner" coating helps dampen vibration for a smoother, quieter ride.

# 0000

#### Convenient breaker switches

There's nothing to change out. If you throw a switch you push the button. It's that easy!

### We give your fish fresh breath

Only the highest-quality wires, switches and connectors go into your Crestliner. Everything is sealed to withstand the harshest marine environment. Plus, we engineer our wiring for easy accessory addition.

A snap to put on... without snaps!
Several 2005 models feature our innovative "snapless" travel cover.

Heavy-duty clips attached to the canvas slide into a slot that's integrated in the extruded gunnel deck. Fits like a charm, and when it's off there are no unsightly snaps that can snag fishing line.

## common sense... it's all on board.

SST is back!

Due to popular demand, we've reintroduced the SST (Space Saver Transom) for 2005. You'll find it as an option on the 1950 and 2150 Sportfish.

## Treated floors, covered for life

Beneath the marine carpet in a Crestliner is a rock-solid floor that we stand behind 100% — because we want every day on the water to be worry-free.

Automotive styling at the helm Sit behind a sculpted Crestliner dashboard and you'll see instrument panels like those found in luxury cars. Even our newly-designed steering wheels represent the apex of style.

From marine hardware to specific carpet and vinyl...

everything you get is first-rate!

If one thing can be two things, more power to you

No, you're not looking at two different boats. It's the new, of conversion stern bench in the '05 Sportfish. Comfortable se casting deck... you decide.

## More comfort is always an option

What a chair! The new reclining helm seat with folding arm rests is an option on some Crestliner models this year.

We keep our patent attorneys very busy

Our space-saving kicker motor "Pocket" is example of the patented innovations that Crestliner one-of-a-kind.

If you like Crestliner Boats, you'll want a pontoon

Visit your Crestliner dealer and take a look at the incredible pontoon line. There's a 'toon for every family, any need and vi

budget. Ask for a
Crestliner Pontoon
catalog (then order
another boat lift).

## IT'S A WIN/WIN SITUATION

Crestliner, Inc.

609 13th Avenue N.E., Little Falls, Minnesota 56345

320-632-6686 · www.crestliner.com

All prices and specifications subject to change. Crestliner, Inc. reserves the right to discontinue models or change prices, specifications, materials, equipment, color or design at any time without notice and without incurring obligations. Some models are shown with optional features. Outboard boat weights shown in this catalog reflect the approximate weight of the boat only, and do not include weights of the outboard motor or accessories installed. All boats meet or exceed United States Coast

Guard regulations and National Marine Manufacturers Association Certification Standards. Warranty: The Crestliner LIFETIME+3 Protection Plan and deck lifetime limited warranties continue to lead the industry. Crestliner warrants that it will repair or replace defects discovered in a main seam hull weld for life after the date the boat is purchased. Crestliner also warrants that it will repair or replace all other defects in materials and workmanship in the boat for a period of three years after the date the boat is purchased. Some restrictions apply. For complete details, a copy of our limited warranty is attached to each new boat or may be obtained from your Crestliner dealer. Many boats featured in this catalog are shown with available options. See your dealer for details.

naiden voyage in a 24-foot Crestliner LSi may be your most important ride. All senses tingle as you

on the Mercury outboard to life. You untie the dock lines and it's as if you're setting a part of yourself free.

You can trade out the port lounge for two reclining chairs and an oval table... the choice is yours!

eart pounds with anticipation, and swells with pride too. Because you've worked hard to get where you

st as we've worked hard to build an impeccable pontoon that will take you where you're going

Adding an optional bow bench not only creates another place to sit...

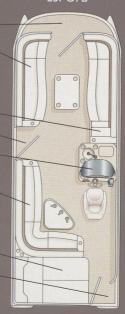

It transforms the bow into a cozy "surround-lounge"

## From tubes to tops, no other

## The proof is in the Protection Plan

A Malus Actions of the State of

If you want assurance that a Crestliner is superior to other pontoon brands, look no further than our LIFETIME + 3 Protection Plan. No one else offers a warranty quite like it! Tube welds and decking are backed for life to the original owner. Virtually everything else from bow-to-stern is covered for three years.

### Smooth fences and gates are as beautiful as they are rugged

Look at other pontoons and you see segmented fencing with visible, bare aluminum framework. Not Crestliner. Our fences feature smooth sheets of thick .058 aluminum beautifully finished. For quiet performance, all gates have premium marine hinges and are seated in rubber "silencer" stoppers.

### You won't find a paint job like ours anywhere else

It's easy to spot a Crestliner Pontoon, because we paint the upper tubes along with the fences, gates and rails. The result is a great look that's also virtually care-free. Plus we bake our two-part Armor-Guard finish to ensure lasting attractiveness.

## High-riding tubes with independent,

We build our 23" and 27" tubes from the finest H34 5052 marine aluminum for the optimum strength-to-weight ratio. All tubes are sealed, pressure-tested and outfitted with top-mount air ventilation to equalize pressure. We go to these measures because there's something special riding on these tubes... You.

## Full-length saddle brackets and cross members that double as spray deflectors

Saddle brackets and cross members connect the tubes and decking to give a pontoon its "structure." Other manufacturers use Z- or C-shaped parts with vertical faces that tend to flex and catch water. We insist on extruded "spray-deflector" components that give your Crestliner Pontoon unmatched strength and a smoother, dryer ride. Plus, because our cross members deflect spray down and away from floor seams, they help ensure longer deck life.

Only the best hardware, consoles, components and craftsmanship

Even the smallest part on a Crestliner Pontoon, from

the sealed wire connectors to our quick-

connect bimini top hardware, is top-of-the-line.

That's why we invite you to scrutinize every inch of our pontoons before you buy. Check out the quality of our custom consoles and the fit & finish everywhere you look. It's simply the most inpovative

pest-built pontoon in the world.

Take comfort in having the finest

furniture

Crestliner sofas, lounges and chairs begin witl computer-created designs that are as comfortable as they are attractive. Then we specify premium vinyls, foam and welting.

Finally, our seasoned upholsterers craft the furniture to automotive-grade quality.

Tech II Motor Pods are bigger and stronger

Other manufacturers use small motor pods bolted in a mere handful of places. That's not good enough for a Crestliner Pontoon. So we

them better than anyone else. This means your pontoon will easily handle a powerful

Mercury Four-Stroke Outboard

## IT'S A WIN/WIN SITUATION

Crestliner, Inc.

609 13th Avenue N.E., Little Falls, Minnesota 56345

320-632-6686 www.crestliner.com

All prices and specifications subject to change. Crestliner, Inc. reserves the right to discontinue models or change prices, specifications, materials, equipment, color or design at any time without notice and without incurring obligations. Some models are shown with optional features. Outboard model weights shown in this catalog reflect the approximate weight of the boat/pontoon only, and do not include weights of the outboard motor or accessories installed. All boats/pontoons meet or exceed United States Coast Guard regulations and National Marine Manufacturers Association Certification Standards. Warranty: The Crestliner LIFETIME+3 Protection Plan and deck lifetime limited warranties continue to lead the industry. Crestliner warrants that it will repair or replace defects discovered in a main seam hull/tube weld for life after the date the boat/pontoon is purchased. Crestliner also warrants that it will repair or replace all other defects in materials and workmanship in the boat/pontoon for a period of three years after the date of purchase. Some restrictions apply. For complete details, a copy of our limited warranty is attached to each new boat/pontoon or may be obtained from your Crestliner dealer. Many boats featured in this catalog are shown with available options. See your dealer for details.
